The Module Problem

Nothing in there until you click the add button

event	state	year	area	money
Storm	Telangana	1980	100.00	1000.00
Earthquake	Arunachal Pradesh	1985	200.00	2000.00
Flood	Assam	1985	400.00	3000.00
Draught	Jharkhand	1990	500.00	4000.00
Earthquake	Delhi & NCR	1990	450.00	5000.00
Earthquake	Himachal Pradesh	1995	300.00	6000.00
Storm	Jammu & Kashmir	2000	500.00	10000.00
Draught	Karnataka	2005	600.00	16000.00
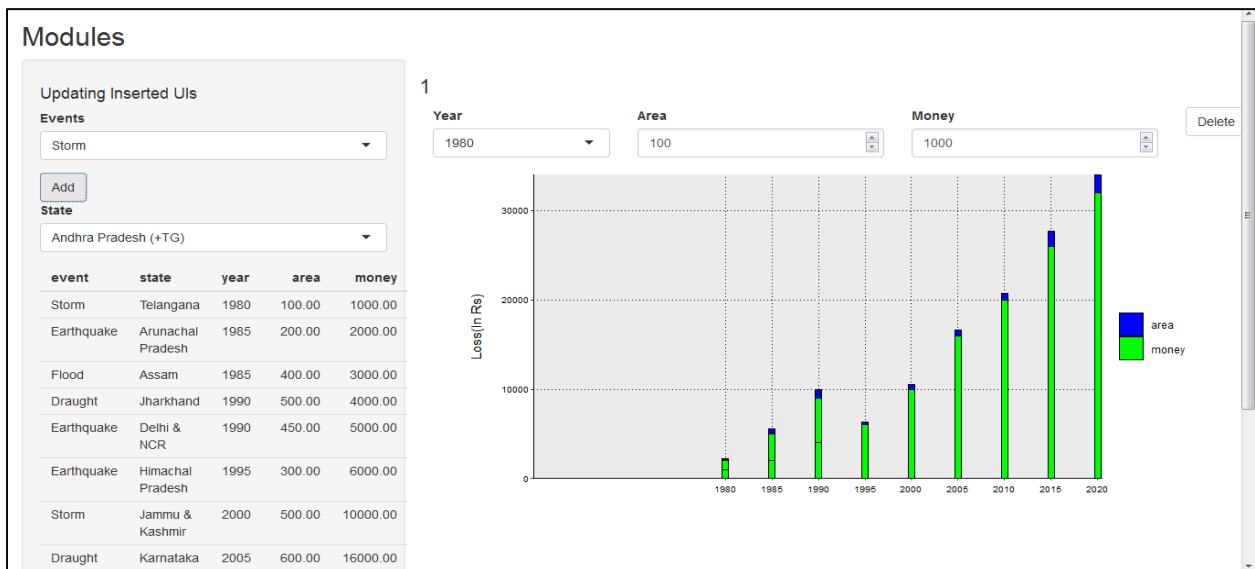

If you delete the last panel then everything again disappears.

- ✓ I want the table and graph to hold up even if you delete the last panel means the table and graph should also be there without any year, area and money panels.
- ✓ This means that the rbind should somehow return the pre-existing table even without the module generated table.
- ✓ I tried to build a condition but without success.

Please find the demo code in this post for understanding my problem.
